Good story and ambiance. This game has the best story I've seen in a game since Leisure Suit Larry or Undertale.

Also, the ambiance in each world makes it feel so much more alive.

I overcome various difficulties, traps and demons.

What really sold me for this game was a lot of bosses, is different complexity of battlefield.

Do yourself a favor and buy it now.

. Slow, boring, and always starts in russian, some people might like this game but personally i think that even for 99p this game just isnt worth it. Short, easy, no story, no replayable...I bought it for 0'59\u20ac I dont regret it but I cant recommend it.
