## About This Game

The castle within the town of Cloudfall has been taken over by an evil demon. Prince Helios has offered a huge bounty to anyone who's able to clear his family's castle and restore order into town. It is your task, as an adventurer to help defeat this evil, bring peace and gain whatever it is that's driving your own personal motivations.

### Characters

**Samano**

*Samano is a Ronin who hears about the demon and wants to do this job of slaying the demon to bring honor and wealth to her fame.*

---

**Wilhelmina**

*Wilhelmina is a country girl who loves to fight, the stronger the opponent the better. She thinks of herself as the greatest demon*

---

*hunter ever and wants to kill the demon to prove that right.*

**Slavia**

---

*Slavia is a Sorceress who wants to capture the demon. She's not interested in money or fame, she just wants a plaything that she can torture for fun and no one will judge her, if it's an evil demon that she can use for her sadistic fun.*

**Hacathra**

*Hacathra is a cleric, as a spiritual and a follower of a light, she's by her very nature drawn towards the vanguard of the demon. She's not really interested in money or fame and feels that this is simply said, her duty to smite the evil.*

---

**Aurae**

*Aurae is a hunter and a mercenary. She does help people for small moneys and volunteers to aid in destroying the demon, in*

---

*exchange for some money.*

**Miwafin**

---

*Miwafin is a genie, who has received a wish about the demon's demise. While Miwafin is not the most powerful genie in the world, she is determined to fulfill the wish and end the demon's rampage, no matter what the cost.*

**Michi**

*Michi is a fun loving catgirl, who spends most of her time doing cat things, like scratching things and being lazy. However, she volunteers destroying the demon in exchange for all the milk that she can drink. (She can drink a lot of milk.)*

---

**Bentley**

*Bentley is a pirate, who hears about the demon. This is no good for anyone and business would suffer, so she offers to get rid of*

---

*the demon in exchange for gold and jewelry.*

Its a mediocre attempt at a city building/management game. It is better than some but not good enough to be a worthy investment. My advise is to just buy tropico or simcity as they do the genre good.. The alpha version looks pretty cool! Though it still lacks most advanced functionalities of a complete hack'n'slash, it looks beautiful, and I can barely wait to see (and play) the game in its fullness! While that's still in the future, I'll enjoy what's already there :D

-----

A versão Alpha está muito boa! Embora ainda sem tantas funcionalidades, o jogo está lindo, e mal posso esperar para ver a versão completa! Enquanto isso, fico curtindo o que já tem :D. This game is surprisingly addictive.. AI are garbage, levels are poorly designed with obviously no testing and very little thought put into how the AI and environment interact. There are points where AI can fire through objects that cannot be seen through like ferns and thick forest grass and through crushed vehicles.

You die constantly in this game. With checkpoints being extremely rare and absolutely no quicksave the game is almost 3 times as long thanks to this.

Also I enjoyed seeing the default CryEngine 3.8 EaaS models again as well as the terrible AI that CryTek staff warn against using. All in all I give this "game" a 2/10. The story is garbage, the AI are terrible and extremely accurate and the gunplay is extremely bland.. Damn this is a good game. Nice.. This game is... alright. It's way too straightforward, you slash your enemy until you win, that's it, the combat is alright overall. The story on the other hand, i couldn't care less about it, the story is dull and boring, all i care about is the gameplay. the segments where you actually get to do something are quite short, like i said 'you slash your enemy until you win'. Graphics are awful, the character models for dialogue look good, but aside from the the sprites look pretty bad, i know graphics aren't everything, but come on this looks sub-par. In short, it's basically a poor man's version of Ys.

EDIT: I feel like i didn't go hard enough. This game is pretty bad, there's still some things that are awful about the game. Most of the times the game is way too easy, then suddenly it throws some  $\sqrt{2665}$  at you and actually kills you, making you actually have to be careful in this game. I need to better describe the in-game sprites, some of them aren't bad, but a lot of them are utter garbage. The sprites for the dialogue aren't bad, but with the girl with the eye patch (I forgot her name) sometimes she's wearing it, something she's not, what's up with that? The story, like i said is boring and i didn't care much about it, so nothing much to about that other than it's complete garbage. In conclusion, this isn't a poor man's version of Ys, is something else and it's awful.

You would be very desperate to play indie games if you buy this. There are much, much better indie games than this.. It's a funny game, but i don't know why nobody loves it. I enjoyed it .. In this game's current state, I would not recommend it.

---

The community is toxic and needs filters.

I usually don't care about offensive language but when you can give your name as n\*\*\*\*\* f\*\*\*\*\*er and a\*\* licker and just curse every other word.

Will change this when devs get around to fixing this.

Purchased Congo 4-Pack for my buddies and I.

Enough content to keep you entertained for about an hour.... at most. I wanted to like this game, but the lack of depth and content made this go stale quick. The melee combat is possibly the worst I've ever experienced with hits registering late and both myself & the enemy going down. My melee swings leaving a "cloud" of death where any monsters running into the area magically die....

bleh.

Save yourself some money.. I really liked the mobile game. It remains one of the best indie games I've played to date. This version is literally just a direct upgrade. Upgraded art style and upgraded design. My only complaint is that the game is impossible with only a mouse and keyboard. The controls are clunky and hard to complete with speed. If you use a controller, the game is even better than the mobile version.. An Egyptian city builder that uses bread as currency..

. Quite cool, but waaaay to hard :(

Runs well on Linux and steam controller support is also nice.
